ABOUT US

A really well-maintained sandblasting system depends on the proper functioning of many different components, so we have filled our inventory with a large variety of devices and accessories for your examination. We have a broad range of sandblast guns as well as an array of nozzles including Venturi and straight bore types. Furthermore, we carry a generous selection of hoses, gaskets, clamps, moisture separators, pressure gauges, and other useful items. You will also find dependable safety supplies such as helmets and gloves. Whether you need sandblasting parts for a small portable machine, painting machine spray tips nozzles, you can purchase the right products.

In addition to our wide-ranging product inventory, this site features a wealth of information about various aspects of sandblasting. We are here to give our customers the top-notch products and service that they deserve, and that's why we go the extra mile to offer a satisfactory buying experience.

We are pleased to be able to distribute our USA & India made sandblaster parts accessories. Please feel free to contact us with any questions that you may have about our products and services.

STEEL SHOTS

We offer our customers with fully treated Steel Shots. The Steel Shots are available in different specifications. Our Steel Shots are known for their superior performance, durability and blasting use. Also, our range of Steel Shots can be availed by our customers at competitive prices. Steel Shots are used for removing rust, dust, scales etc.

DEW METER

We are offering the best quality Dew Meter in the market. The Dew Meter is used for measuring dew in the atmosphere. It is digital and user friendly and requires less maintenance. Also, the range of Dew Meter is known for its light weight and easy installation. Dew Meter has a long battery life and also is equipped with an in built water vapor sensor.

COATING THICKNESS GAUGE

We bring forth superior quality Coating Thickness Gauge. The Coating Thickness Gauge supplied by us is often used to detect the coating thickness of paint on metals such as iron in the automotive sector. Coating Thickness Gauge is used for both professionals as well as personal use. Easy to use, the clients can avail Coating Thickness Gauge from us at affordable prices.

AIRLESS PAINTING MACHINE

Our company brings forth highly efficient Airless Painting Machines for our customers. These Airless Painting Machines are designed to spray solids with 100% solid coatings under extreme conditions. Airless Painting Machines are widely appreciated for their longer life and low maintenance. The range of painting machine is offered at the most reasonable prices.

HIGH VOLUME MOISTURE SEPARATOR

We are a renowned Supplier of High Volume Moisture Separator in United Arab Emirates. Our Moisture Separator is connected in line close to the blast pot to assist in removing moisture from the sandblast system without pressure loss. It is effective in removing moisture from the compressed air for efficient blasting. It is offered with 2" one inlet, our outlet, manual drain valve, safety relief valve and pressure gauge. We make safe and swift deliveries without delays.

METAL FILTER MESH

We are offering our clients with premium quality Metal Filter Mesh to our clients. A Metal Filter Mesh consists of layers of aluminum slit that are expanded into various thicknesses. These Metal Mesh air filters offer a semi-permanent, cleanable air filtration solution, suited for outdoor environments, with integrated EMI shielding capabilities. Metal Mesh filters are ideal for use in harsh environments where rugged, washable and reusable filters are most appropriate.

GUN TIP GUARDS

We offer our clients with Gun Tip Guards. Our Gun Tip Guards are widely acclaimed in the market for their durability and fine finish. The Customers can avail Gun Tip Guards at affordable prices. Also, these Gun Tip Guards acts as a safety device to prevent a person from coming into contact with the tip while spraying.

GUN SWIVELS

We are the leading name in the industry engaged in supplying premium quality Gun Swivels. Gun Swivels offered by us are used as a means of sling removal without thread through swivels. Also used as Loc plunger and for mounting screws, these Gun Swivels are widely demanded due to their durability and sturdy construction. Gun Swivels offered by us are available in pairs with or without mounting studs.

SUCTION FILTER

Our customers can avail from us the best quality Suction Filters. These Suction Filters are designed with in-tank suction strainer elements for direct installation into suction lines of pumps. The Suction Filters are well-known for their sturdy construction and durability. Clients can avail Suction Filter in bulk quantity.

GUN REPAIR KIT

The company holds expertise in offering high quality Airless Spray Gun Repair Kit to our customers. We are recognized as one of the prime Airless Spray Gun Repair Kit Supplier based in UAE. The Airless Spray Gun Repair Kit that we offer ensures excellent performance. Clients can avail Airless Spray Gun Repair Kit from us in the required amount within the stipulated time frame.

BLASTING NOZZLES

We are engaged in supplying high quality Blasting Nozzles. We procure Blasting Nozzles from the reliable manufacturers of the industry. Manufactured with utmost precision, our Blasting Nozzles are fabricated using high grade metals such as aluminum, steel etc. Blasting Nozzles, that we are offering, are extensively used for firing abrasive blasting media such as aluminum oxide, silicon carbide, steel shots/grit, glass beads etc. Our clients greatly appreciate our Blasting Nozzles for high resistivity and hardness.

PAINT HOSES

The company specializes in supplying wide collection of Paint Hoses to the customers. Our Paint Hoses are mainly used in paint guns and sprayers. These Paint Hoses are highly flexible and well-known for their remarkable features such as high durability and capacity to withstand high pressure. We are renowned Supplier of Paint Hoses based in Arab Emirates.

AIRLESS SPRAY PAINTING MACHINE

We bring forth Airless Spray Painting Machine which is ideal for liquids of medium viscosities, primers, finish paints and paints of medium viscosity & particle size. With high flow rate, stainless steel body and low maintenance, our Airless Spray Painting Machine has become the primary choice of our valuable customers. The Airless Spray Painting Machine is suitable for working in rough conditions without any hassle.

NOZZLE HOLDERS

We are a reputed Nozzle Holders Supplier in the market. The experts meticulously design and produce Nozzle Holders as per the needs and requirements of our customers. Nozzle Holders are extensively used for connecting blast hoses with blasting nozzle. These Nozzle Holders have robust construction and accurate dimensions. Ensuring long functional life, our Nozzle Holders demand least maintenance.

RESPIRATORY MASKS

We are renowned Respiratory Masks Supplier based in UAE. Respiratory Masks are mainly worn to prevent the inhalation of the harmful gases, dust, paint sprays and toxic substances. Available in different specifications, our Respiratory Masks are light in weight and extremely comfortable. Further, our Respiratory Masks do not interfere with wearing of spectacles, and incorporates a curled lip under the nose for extra comfort.

FILTER CARTRIDGES

We are engaged in supplying excellent quality Filter Cartridges. Procured from reliable manufacturers, our Filter Cartridges make best use of the world class mechanism to filter the desired component. Our Filter Cartridges are highly in demand in the chemical industry, petroleum industry, mineral industry, water purification industry etc. Safe operation, excellent filter surface on small space and unmatched quality are some of the prominent features of our Filter Cartridges.

VENTURI AIR BLOWERS

Based in Arab Emirates, the company is proficient in supply excellent quality Venturi Air Blowers. The Venturi Air Blowers, that we are offering, are highly appreciated by our clients for efficient blowing of air. Our Venturi Air Blowers are used in diverse industries specially cement, construction, processing and others.

ABRASIVE VALVES

We are prominent Abrasive Valves Supplier based in Arab Emirates. Manufactured from high quality non corrosive alloy, this valve is recommended for use with non-metallic abrasives. Precise abrasive flow can be easily controlled by two stainless steel discs, one stationary and other one rotates to any aperture opening available in 1-1/4" and 1/2" size.

SAND BLAST SUIT

Personal protective equipment is the most important part of any blasting system as it keeps the operator safe and comfortable during work in a hazardous environment.

DURABILITY

THE LEATHER MATERIAL PROVIDES THE USER WITH PROTECTION AGAINST RICOCHET IMPACT OF PARTICLES PRODUCED BY THE BLASTING OPERATION. LEATHER IS ONLY USED IN THE MOST EXPOSED AREAS TO MAXIMISE COMFORT AND MINIMISE WEIGHT

QUALITY

VELCRO AT THE WRIST AND ANKLES TO PREVENT ABRASIVE AND DUST INGRESS. AND A VELCRO FASTENING WITH HIDDEN HEAVY-DUTY POPPERS.

VISIBILITY

THE RED COTTON ENSURES THE OPERATOR STANDS OUT IN A DUSTY ENVIRONMENT

SAFETY

THE SUIT IS MANUFACTURED AND CONFORMS TO BLAST SUIT STANDARD EN ISO 14977:2003
